Restriction to one of the following inventions is required under 35 U.S.C. 121:

- 1. Claim 12-21 drawn to filter arrangement, classified in class 361, subclass 796.
- II. Claim 22, drawn to method of arrangement, classified in class 29, subclass 830+.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case a method is used for manufacturing a filter arrangement. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for
